

HEFEL neck support pillows ensure relaxation whilst you sleep. It does not matter whether you like to sleep on your back or your side - the new ergonomic HEFEL neck support pillows offer optimal pressure relief and a pleasant, correct sleeping position. Every pillow adjusts itself exactly to the contours of the head and neck and therefore provides best support for every individual person, regardless of their sleeping position. Special TENCEL® covers provide cosy comfort: they are soft and fleecy, easy care and add to the beneficial effect. HEFEL neck support pillows with TENCEL® covers have pronounced temperature-regulating characteristics and are incredibly actively breathable.

IDEAL FOR THOSE WHO SLEEP ON THEIR SIDE

If you sleep on your side your spine moves sideways and rotates. HEFEL neck support pillows have been optimised to even out these rotary movements and ensure that the spine is positioned in a „straight“ line and relieve pressure on the neck vertebrae. This supported sleeping position results in relaxed and restful sleep.

OPTIMAL ERGONOMICS WHILST YOU SLEEP

IDEAL FOR THOSE WHO SLEEP ON THEIR BACK

Those who sleep on their back do not move much and seldom change position. Optimised HEFEL neck support pillows make sure that the head and spine stay straight when you sleep on your back and are supported in the physiologically correct manner. By providing pressure relief this position leads to relaxed and restful sleep.

NECK AND SPINE IN BALANCE

THE NEW TENCEL® COVER

The new TENCEL® cover for all HEFEL neck support pillows ensures even more recuperative sleep. The cover used in HEFEL neck support pillows is made from TENCEL® – an environmentally-friendly fibre produced 100% from wood. The TENCEL® fabric has the best actively breathable characteristics, offers optimal moisture management and is suitable for allergy sufferers. The cover perfectly supports the functions of HEFEL neck support pillows, is easy care and soft and fleecy to the touch.

HEFEL NECK SUPPORT PILLOW RANGE

THE RIGHT PILLOW FOR EACH INDIVIDUAL TYPE OF SLEEPER

PUR COLD FOAM

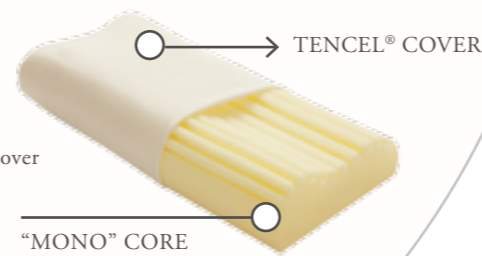

HEFEL MONO

SIMPLE AND COMFORTABLE IN EVERY POSITION

HEFEL MONO, the classic neck support pillow with an excellent ability to adjust to the contours of the head, has a core of top quality PUR foam (polyurethane). It perfectly suits all those who sometimes suffer from neck and back pain and therefore prefer a support pillow or are thinking of changing over to a neck support pillow.

"MONO" ADVANTAGES

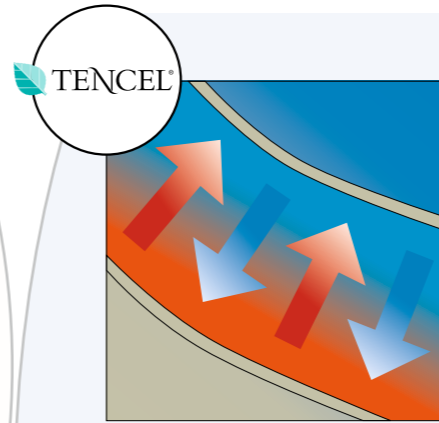

- Very good value for money
- Ideal introduction to the "world of neck support pillows"
- Top quality moulded foam
- Dimensionally-stable and hygienic
- Actively breathable TENCEL® jersey cover

TENCEL® COVER
"MONO" CORE
Cold foam from PUR foam
